PROJECTS

- Spark Chat - Real-Time Messaging Application**
Spark Chat is a real-time messaging application designed to provide secure and instant communication. It combines a modern frontend with a robust backend to ensure reliability and scalability.
- Eflyer - E-commerce Demo Website**
Developed a responsive e-commerce website using HTML, CSS, and JavaScript, featuring a dynamic homepage, product search functionality, and interactive navigation elements to enhance user experience.
- Quizify - Quiz Mobile App**
Developed 'Quizify,' a mobile app using Flutter and Dart for creating and taking quizzes, with dynamic question selection and a user-friendly interface. Implemented MVC architecture, leveraging version control with GitHub and CI/CD for efficient cross-platform functionality on Android and iOS.
- CareerPulse Mobile App**
Developed a Flutter-based app for CV analysis, providing personalized career recommendations. Features include NoSQL storage, efficient network handling, and cross-platform compatibility.
