ALIGNED PROJECTS

- **URL Shortener Web App**
  Frontend & Backend Development | Individual Project | 2025

  Developed a URL shortener using the TinyURL API with instant shortening, one-click copy, and a responsive UI. Deployed on Vercel for seamless access.

  Tech Stack: React.js | JavaScript | TinyURL API | HTML | CSS | Vercel

- **Real-Time Messaging Application**
  Full-stack Development | Team Project | 2024

  Designed and developed a secure real-time messaging app, focusing on backend integration, deployment, and real-time data synchronization for scalability and accessibility.

  Tech Stack: JavaScript | MongoDB | Socket.io | Express.js | React.js | Node.js | Docker

- **Eflyer - E-commerce Demo Website**
  Frontend Development | Individual Project | 2024

  Built a fully responsive e-commerce website with a dynamic homepage, product search functionality, and interactive navigation. Focused on enhancing UI/UX to improve user engagement and usability.

  Tech Stack: HTML | CSS | JavaScript | Bootstrap

DIVERSE PROJECT INSIGHTS (10+ PROJECTS)

- **CareerPulse Mobile App**
  Mobile Development | Team Project | 2024

  Developed a career recommendation mobile app using Flutter, providing CV analysis and personalized career guidance. Integrated NoSQL storage for efficient data handling and ensured cross-platform compatibility.

  Tech Stack: Flutter | Dart | Firebase | NoSQL | REST API

- **LostMate Mobile App**
  Mobile Development | Team Project | 2025

  Developed a Lost and Found mobile app using Kotlin, enabling users to report and retrieve lost items efficiently. Implemented authentication and navigation features, ensuring a seamless user experience. Integrated secure database management for reliable item tracking.

  Tech Stack: Kotlin | Firebase | Jetpack Navigation | REST API

- **Professional Portfolio Website**
  Web Development | Individual Project | 2024

  Built a responsive portfolio website using Next.js, showcasing projects and technical skills. Designed a modern UI with CSS Modules for a seamless user experience. Implemented React Router for smooth navigation and an integrated contact form for communication. Deployed with optimized performance and SEO-friendly structure.

  Tech Stack: Next.js | React.js | CSS Modules | JavaScript | Vercel

- **Calculator Application**
  Desktop Application | Individual Project | 2023

  Developed a career recommendation mobile app using Flutter, providing CV analysis and personalized career guidance. Integrated NoSQL storage for efficient data handling and ensured cross-platform compatibility.

  Tech Stack: C# | Windows Forms | .NET Framework | Visual Studio
